

## 20200430\_HAYNESVILLE SHALE PLAY \_IS **BLACKBEARD** TAKING OVER **BP** WELLS

- 1 – Example Well in San Augustine County, Texas –
- 2 – BP turned in February production, but **Blackbeard** is listed to turn in March production, and
- 3 – BP comes back in on April – *unless it is changed* to Blackbeard in the future, and
- 4 – Looking at Blackbeard’s **website** & under “**About**”, there’s a map, showing assets in the “ARK-LA-TX” with a pretty large blurb of color that is both in Louisiana and Texas - - and
- 5 – I ran Blackbeard to see what the RRC simply reported as ‘how many wells did Blackbeard operate in – in March’? Wells in Angelina, Harrison, Nacogdoches, Panola, Rusk, San Augustine and Shelby Counties... I don’t know about every well (everywhere), but it sure smells like a sellout. I don’t know or look at Louisiana much – hard to navigate the SONRIS system, and
- 6 – There’s always something new, but I believe it would take a ‘hacker’ to change operators at the RRC if it didn’t actually happen - - and,
- 7 – Searching for leases in **Dist. 06** & running any leases Blackbeard might have operated from January 2020 to April 2020, only one month comes up – March, so
- 8 – I’m *wondering* if BP presented the RRC with enough stuff to believe that Blackbeard WILL be taking over, but (maybe because of the virus) they just haven’t had enough time to fill out & file all of the P-4s yet.

If it’s not real, it sure is *WEIRD* . . .
